

DATA LOGGER

DAQ4000

- 16/32/48 Analog Inputs
- Alphanumeric Backlit Display
- RS232 Printer Output
- USB Output

DAQ4000 is a 48 Channel data logger. Data can be transferred to PiSCADA over Ethernet. The data logger along with the PiSCADA system adheres to all the requirements of 21CFR Part 11. Printer output and USB are also available for Data transfer. All the required configurations can be programmed from the PiSCADA system.

Features

- Inbuilt Memory: 21600 Records
- Ethernet communication
- 48 Analog Inputs(AI)(RTD/0-1//0-10V)
- Inbuilt RTC, stamps each data packet with real time & date
- Displays Process Values in Alphanumeric Backlit LCD display
- 2 alarms per channel
- 1 Relay output for Alarm
- *USB data export via PDF and CSV

- Remotely configurable from PiSCADA Software or from front panel
- Extensive diagnostics to help in trouble shooting
- Fast sampling and generation of alarm
- RS232 for Dot matrix printer
- No data lost in case of printer failure

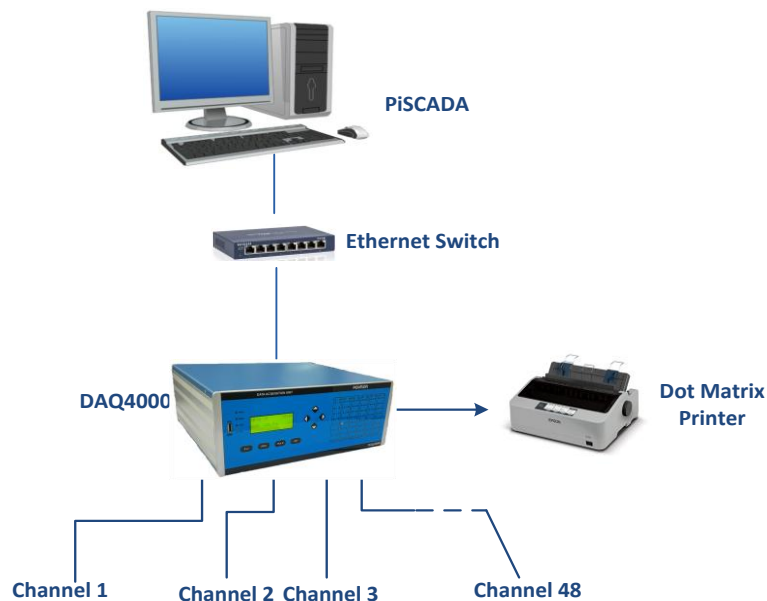

Advantages

- Store and forward feature enables gap free data logging in the event of PiSCADA failure
- Power on, power off, communication failure events are recorded

Applications

- Validation
- Mapping
- Reactor process parameters
- EMS
- Data center
- Cold room etc

Network Architecture

Specifications

Model No	DAQ4000		
No. of Channels	Upto 48(16/32/48)		
Input type	RTD(Pt100) 3-wire, Current (4-20mA), Voltage(0-1/0-10V)		
Measurement range, Accuracy and Resolution	Measuring range	Resolution	Accuracy
RTD	-200°C to 500°C	0.1, 1	±0.05% of FSR
4-20mA/ 0-10V/ 0-1V	-1.999 to 9.999	0.001	±0.1% of FSR
	-19.99 to 99.99	0.01	
	-199.9 to 999.9	0.1	
	-1999 to 9999	1	
Digital Outputs	1 C, NO, NC (Relay)		
Display	Alphanumeric LCD 3mm LED's for Alarm status indication		
Scan Rate	1 Sec/ Channel		
Log Rate	1 min		
Communication	MODBUS TCP/IP (Ethernet)		
Keypad	Membrane Keys		
ADC	24 bit resolution		
Clock accuracy	±1 Seconds with respect to NTP Server ± 2 Minute/Year (Stand Alone mode)		
Output Port	USB (Logged data retrieval)		
Printer Output	RS232		
Time Synchronisation	NTP Server / From front panel		
Memory	21600 Records		
Programming	a. From front panel by user- friendly keys b. Remotely from PC by PISCADA software		

Power Supply

Power Supply	100 to 240V AC 50Hz
--------------	---------------------

Physical

Enclosure material	MS
Weight	1.5 Kg approx.
Dimensions	340x240x130mm
Mounting	Table Mounting

Environmental

Operating Temperature	10-60°C
Humidity	10-95%RH, Non-Condensing

Ordering Information for DAQ4000

Model No	I/P Card Type	Print Format	Communication	Relay O/P	USB Output	Future Use
DAQ4000	1 - Analog (16 Ch)	1 - Default format	1 - Ethernet	1 - Relay (1C, NO-NC)	0 - No	
	2 - Analog (32Ch)				1 -Yes	
	3 - Analog (48Ch)
